## To get a cabinet quote:

Please email your measurements to [info@CabinetStoneExpo.com](mailto:info@CabinetStoneExpo.com) or visit our showroom with the measurements.

- 1) Draw your kitchen floor plan with each wall, door, window, protrusion and recessed areas.
- 2) Measure each wall length.
- 3) Measure floor to ceiling height.  
If your kitchen has soffit (or bulkheads), measure soffit height and depth.
- 4) Measure each window and door width and height.  
\*(Windows and doors are measured from outside edge to outside edge of casing or trim)
- 5) Measure from bottom of each window casing to floor.
- 6) Measure from left or right end of each window & door casing to the nearest corner.
- 7) Measure from center of each water and gas pipe to the nearest corner.
- 8) Indicate each one of your appliances and their dimensions and location.

## Sample Kitchen Measurement
